

Cacao CRUNCH

A delicious, crunchy mix of dark vegan chocolate and hazelnut, with subtle vanilla undertones. High in fibre and seed content. Add hot milk/alternative and leave to soak for a rich oozy porridge.

Apple PIE

A mouthwatering combination of apple, cinnamon and walnut flavours. We've added handground linseed for extra nutritional intake and puffed rice to give it a wonderful light crunch.

Tropic BLAST

Sourcing the most unrefined and sustainable coconut blossom nectar from flowers in Indonesia, this chia seed mix has a subtle caramel flavour. Bananas, cashews and coconut complete a taste that is true tropical paradise.

Nutty MIX-UP

If you like nuts, you're in luck. We've gone overboard with our quantities in this recipe, and it is high in protein as a result. Packed with whole and flaked almonds, walnuts and mixed up with honey and seeds, it's a mouthfull of crunchy goodness.
